Story Vote

Hey, guys. I'm sorry I haven't updated a new chapter in a long time, but I have been contemplating a big decision for a few months. I have been trying to decide who Jade's fellow guardians of nature will be. I am between Lord Of The Rings/ Hobbit and How To Train Your Dragon/ The Lorax 2012.

For LOTR/Hobbit, there are a lot of characters, but they don't interact with everyone. Also, it makes Jade a complex character and her past as well. There are some kids of the characters, and Kili, Smeagol, Smaug, Fili and Thorin live in this version. There are many complex things in this version.

For Dragons/Lorax, Jade is still complex, but her past is a little easier to comprehend. Also, since her fellow guardians are Once-Ler(He is the young version), 20-year-old Hiccup(basically the HTTYD 2 version of him.), and The Lorax. In this version, they interact a lot, and are like siblings to each other. Frozen is also featured in this, because Elsa and Hiccup are married with a daughter name Freya who is first introduced as a six-year-old. Anna and Kristoff are married and have a child as well, a son named Isen(which is Norwegian for ice, believe it or not.) who is first introduced as a three-year-old.
